

Business Summary

AK Evans Earthmoving (AKE), founded by Aaron Evans (Director) and Kylie Hall (Director) in 2006, has become one of the most reputable and respected Pilbara-based Civil Operators. AKE commenced operations specialising in the wet and dry hire of heavy earthmoving equipment, and have built a strong reputation for supplying reliable machinery and great support staff, coupled with an in-depth local knowledge of WA; particularly the Pilbara and the South West.

AKE supply a broad range of machinery and vehicles. Our Excavators range in size from 3t to 48t, including brands such as Hitachi, Komatsu and Volvo. Other equipment types include John Deere Graders, Bomag Rollers, Volvo and John Deere Loaders, Cat and Clark Skid Steer Loaders, 6x4 and 8x4 Water Trucks and Semi Water Tankers, Side Tipper combinations and smaller 6x4 Tip Trucks, with a fleet of Kenworth Prime Movers and Tray and Service Trucks.

As a smaller business, we have a strong and dedicated team working hard together. We are able to adapt to the requirements of our customers, whether that be a small local business, a local shire or a big mining company.

AKE are experienced in performing a range services, including road construction and maintenance, rail maintenance, civil works, sub-divisions, rehabilitation works, dam construction, waste remediation and demolition works.

Services Summary

Fleet Maintenance

We have a dedicated team of Service Technicians and Fitters who maintain our equipment, with full service histories available for all machinery. All equipment faults and services are logged in a specialist software programme that is used Company-wide. AKE have the capacity to offer remote and on-site servicing and fault rectification if required.

Weed and Seed

Prior to a machine leaving AKE, it is thoroughly cleaned and free from any grease, oil, dirt, weeds and seeds, in the event that the machine is required to be inspection-ready.

Labour Hire

AKE employs fully qualified and experienced Civil Operators, as well as multi-skilled machine operators, truck drivers and Civil Supervisors. All of our Operators have knowledge and experience of various sites across the Pilbara and South West WA, and are willing to complete any site-specific inductions, medical screening or any other site-specific training as required.

Joint Ventures

AKE have formed a joint venture company with Kurtarra PTY LTD (an indigenous Pilbara-based group) called MaraMara WA PTY LTD, which employs local indigenous civil operators on projects for FMG, BHP, Roy Hill and many smaller civil and construction companies. There is a strong focus on training and upskilling within MaraMara, with the JV successfully tendering for business opportunities since 2014.
